Product description

Style: Metric

SATA tools are responsibly designed to help professional men and women continuously improve the world around them. SATA wrenches come in essential standard and metric sizes and are available in convenient sets. Perfect for any technician's, electrician's or mechanic's toolbox, these high-quality wrenches are ideal for diesel mechanics, heavy equipment, agricultural machinery, auto repair or removing heavily rusted, stuck-on nuts and bolts. Thick and thin beams and multipurpose, closed-loop designs allow you to firmly grip the tool with ease to tighten and loosen hex or square nuts and bolts. Additionally, with a lightweight makeup, you don't need to compromise on power. The laser-etched measuring scale on the tool helps you quickly identify the right size. For added convenience, tool rolls or organizers let you carry your tools hassle free when you're on the go. The full-polished chrome finish offers a clean, modern look. Covered by a lifetime, SATA wrenches help you get the job done.
